

# Object storage in the cloud – different service classes for different areas of application

Depending on what you want to use object storage for, there are different classes of services to choose from. We offer four different classes to meet a wide range of needs. From data you just want to put in long-term storage and forget about, to data you'll read a billion times a day—all your needs are covered!

Storage policy	hp.intensive	gp.recurring	gp.intermittent	gp.archive
Type of data	Primary	Primary	Primary/Secondary	Secondary/Backup
File size	Small to medium	Small to large	Medium to large	Large to enormous
Access patterns	Constant	Constant	Sporadic	Rarely
Optimized for	Fast access and low latency	Continuous access	Sporadic access	Long-term storage
Storage solution	SSD/Flash	HDD/Mechanical	HDD/Mechanical	HDD/Mechanical
Data security	99.999%	99.999%	99.999%	99.99%
